Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to amendment filed 6/30/06.

Response to Amendment

2. Claims have been amended per request. Claims 19-22, 24-28, 30-48, 50-113 are currently pending.

Response to Arguments

3. The amendment has overcome rejection of claims under 35 USC 112(second) (see Prior office action dated 4/10/2006. However, the claims have been found to be rejectable under 35 USC 103(a) based on a newly found prior art.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Art Unit: 3693

5. Claims 19-22, 24-28, 30-48, 50-113 rejected under 35 U.S.C. 103(a) as being obvious over PR Newswire, "Exbet Receives Financial Betting License" Feb 15, 2000 (hereafter Exbet).

As per the aforementioned claims Exbet teaches inventive concept of operating a fixed-odds betting system which includes a central processing machine in communication with a data feed to source of data concerning a financial market and a user terminal in communication with the central processing machine (the structure of the system is inherent in a Internet based fixed odds betting system because Exbet.com is a web server which is connected to user terminal who places bets on a financial market). Exbet further teaches the process steps of accepting a user multiple parameters and receiving one or more of the (varies of bets are offered, para 3 on various market indices), obtaining data concerning the financial market via the feed (fixed odds and pay outs require up to date financial quotes be incorporated in the respective calculations), calculating a fixed odds price for the bet based on at least one of the parameters received from the user terminal and the data obtained from the data feed (refer to calculation of payouts in the "real-time" and refer to the customer selected bets).

Exbet fails to teach various features in explicit manner, such as data feed concerning financial market, in particular obtaining "real time" data, historical data of respective history of market prices, user inputs, checking the parameters for inconsistencies. However, the examiner takes official notice that these features are old and well known in the art of finance and/or data communication and data processing. It would have been obvious to one of ordinary skill in the art at the time of the invention to modify the Exbet reference based upon the teaching of varieties of old and well known

Art Unit: 3693

features to obtain the methods and apparatus of the claimed inventions in order that accuracy and integrity of user data is maintained, the financial data is most up to date which would provide accurate pricing of the fixed odds betting, and thereby making the betting more interesting and enticing to the user.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
